

MEMORANDUM FOR: DCI:

22 Dec

The DDCI read the "minutes" for yesterday's Staff Meeting and wanted you to know that the Willard Report is still with Jim Baker; its been there for a number of months, with little substantive movement.

The DDCI's concern is that if you table the Willard Report with VP Bush, Shultz, SIG (I) etc, it may get back to J. Baker et al and it may be interpreted as an "end run."

A discussion with the DDCI on this subject should be scheduled soonest; Baker et al must move on the Willard Report.
